

Looking for an alternative material of construction?

Choose RMB Rotolined Steel for Best-in-Class Corrosion Protection

Performance

- Excellent chemical resistance
- Seamless bonding
- Cost-effective protection
- Full vacuum rating
- Coverage of complex internal geometries

Project Potential

- Pipes, vessels, and columns
- Pipe lengths up to 20 feet
- Temperatures up to 300° F (ETFE) and 450° F (PFA)
- Fast project turnaround
- Emergency service and turnkey supply available

Lining Materials Available PFA | ETFE (Tefzel™) | PVDF | HDPE | RMB BIO-ARMOR™

(719) 382-9300
